

Drone Risk Map – Guernsey ATZ

If a drone is planned to Operate within the **Red** high-risk area, highlighted below, then the flight may only take place between manned airborne aircraft movements within the ATZ. This will be coordinated on the day between the ATC Supervisor and the operator.

Flights planned within the ATZ, outside of the **Red** high-risk area, may be permitted provided that the operator can accept the height restrictions detailed below:

Yellow Not above height 100'

Green Not above height 200'

Blue Not above height 300'
